EDUCATION

2023-2027
SR UNIVERSITY
BACHELOR OF COMPUTER SCIENCE-AIML
CGPA-9.51/10

2021-2023
SR DHRUVA JUNIOR COLLEGE
INTERMEDIATE
PERCENTAGE-97.1

SKILLS

- Project Management
- Time Management
- Effective Communication
- Teamwork
- Critical Thinking

LANGUAGES

- English
- Telugu

TECH SKILLS

- Python
- Machine Learning Pandas, NumPy
- Matplotlib
- SQL
- Data Structures and Algorithms

PROFILE

CSE student specializing in AIML, proficient in programming, machine learning, and data analysis. Passionate about AI-driven innovation, problem-solving, and real-world applications.

PROJECTS

DRY BEAN

Dry Bean Classification Project: Developed a machine learning model for dry bean classification using image processing and predictive analytics. Preprocessed dataset, extracted features, and implemented classification algorithms such as SVM, Random Forest, and Neural Networks to achieve high accuracy. Evaluated model performance using precision, recall, and F1-score. Demonstrated expertise in data preprocessing, feature engineering, and model optimization.

Hybrid XGBoost-ANN Model for Solar Radiation Prediction with High Spatial Resolution

Developed and evaluated a novel hybrid model combining Extreme Gradient Boosting (XGBoost) for feature selection and Artificial Neural Networks (ANN) for non-linear pattern learning, to accurately predict solar radiation using high-resolution spatial and meteorological datasets. Achieved improved predictive performance over baseline ML models by optimizing hyperparameters, reducing feature noise, and enhancing generalization for varying geographic conditions.

INTERNSHIPS

- Google AI-ML Virtual Internship
- Juniper MIST-AI Virtual Internship
- AWS Academy Data Engineering
